Press Release for immediate release
Newbury, UK: 1st November 2018

New Team to Drive Forward Growth at LAT Water Limited

Fast growing Newbury based company LAT Water Limited (LATW) provides an environmentally friendly low cost solution to a wide range of industrial waste and salt water problems.

On the heels of the recent publication of LATW's contract with Jiangsu WELLE Environment Co Ltd to provide leachate treatment plants in China, LATW are pleased to announce the following key Executive appointments:

- Dr Martin Kay as Chief Executive Officer; and
- Duncan Williams as Chief Marketing Officer

Daniel Battle, an experienced Process Engineer, has also been appointed to provide additional support to LATW's Chief Technical Officer, Dr Nick Singh. Our LATW team in China, lead by Ben Wang, will be further strengthened by Engineer Lin Shanren.

The appointments are to support the projected growth in business over 2019 and beyond in the UK and Internationally.

The Chairman of LATW, Peter Champness, commented:

"I am delighted to welcome the new team members. This represents a new milestone in LAT Water's exciting strategic growth plan".
